

2009-2010 COURSE OUTLINE

COURSE NAME:	Science and Technology	LEVEL:	Cycle 2, Year 1
COURSE CODE:	555 – 306	PERIODS PER CYCLE:	6

Subject Area Competencies:

1.	The student seeks answers or solutions to scientific or technological problems
40%	-The student must use the scientific method or the design method to solve problems. Student expertise is expected to increase with each lab performed.
	-The student must identify, and be able to restate in her own words, the questions asked of her in lab situations.
	-The student should be able to write a clear, concise procedure while using scientific vocabulary.
	-The student should be able to carry out the procedure using correct techniques and as well as following all safety rules.
	-The student should be able to form conclusions and inferences from the data collected during the experimental procedure. She should also be able to identify potential sources of error which may have affected the experiment's results.
<i>Activity Types in this competency:</i>	
- All activities related to the scientific method (Labs; Design projects)	
2.	The student makes the most of her knowledge of science and technology
40%	-The student should be able to analyze and form opinions on scientific issues.
	-The student should be able to analyze a technical object.
	-The student should be able to apply facts and theories to new situations or to answer questions.
<i>Activity Types in this competency:</i>	
- Issue analysis (essays, orals, displays, etc...)	
- Content Based Tests; Essay tests; case studies	
- Analysis of technological objects.	
3.	The student communicates in the languages used in science and technology
20%	-The student will be able to communicate in all forms (oral and written) using appropriate scientific vocabulary and symbols.
	-The student will be able to create data tables and charts accurately.
<i>Activity Types for this competency:</i>	
- Any activity which requires using scientific vocabulary.	
- Appropriate use of vocabulary and symbols in student work is required.	

Please read both our Information Handbook and the Course Description book for details on absences, homework, Parent/Teacher interviews, evaluation, requirements for graduating, requirements for entering CEGEP, and many other pertinent topics.
